Four Number-Cipher Crosswords, Each With Exactly One Solution

A codeword is a crossword with no clues. Every letter has been swapped for a number from 1 upwards: the same number is always the same letter, and no two numbers share a letter. Three letters are given to start you off.

How To Play

1. The three starter letters are filled in for you, in grey, wherever their numbers appear.
2. Find a part-made word you can finish, and write each new letter into every square with its number.
3. Keep the key up to date, and cross letters off the alphabet as you use them.

What Is Inside

- Codewords 1 to 4 (pages 2 to 5)
- The answers are on page 6
- Every word is an everyday English word. A computer search through more than 170,000 words proved each grid has only one solution.

Use a pencil: a wrong turn rubs out.
Printing tip: print at full size on A4. On US Letter paper, choose Fit To Page.
Print the answer pages separately if you want to keep them out of sight.
